ONE POSITION AVAILABLE, WILL CONSIDER FILLING AT EITHER LEVEL

Under the general direction of the Assistant Chief, Division of Environmental Planning and Management (DEPM), the position is responsible for assisting staff with the environmental analysis of projects before and programs of the California State Lands Commission.

DUTIES AND RESPONSIBILITIES:

- Assist in the environmental review of proposed new and renewal lease applications for small projects (boat docks, piers, etc.) located on major rivers (Sacramento, San Joaquin), the Delta, and Lake Tahoe;
- Assist in gathering and analyzing available data and information regarding the potential environmental effects of proposed or ongoing projects and develop documents compliant with the California Environmental Quality Act (CEQA) on large projects for which the Commission has jurisdiction. Projects may include major oil/gas pipelines, marine oil terminals, large-scale dredging, and natural resource restoration;
- Assist in the review of environmental documentation prepared under the provisions of the National Environmental Policy Act (NEPA) or CEQA by federal, State or local agencies on projects for which the Commission is a Responsible or Trustee Agency and assist in the preparation of comments regarding the adequacy of such documentation;
- May have the opportunity to assist DEPM staff working on Natural Resource Damage Assessments (NRDA), the Wetland Manager's Group (Southern California Wetlands Recovery Group) and similar tasks;
- Other duties as required.

DESIRABLE QUALIFICATIONS:

- Graduate or upper-division college student with a major in environmental sciences, watershed sciences, geology, geography, biology or other closely related science;
- Ability to work within a diverse, inter-disciplinary team environment;
- Working knowledge of computers and software (word processing and databases) and a basic familiarity with Geographic Information Systems (GIS).
